FULL TITLE:

Plan de actuación estratégico de internacionalización de I+D de Fundación Aitiip. (*Strategic action plan for internationalization of R & D Foundation Aitiip*)

FILE NUMBER:

INN-174000-2010-036

APPLICANT ORGANISATION:

Aitiip Technology Center

CALL:

INNOEUROPA 2010

DATE OF COMPLETION:

April 2010-December 2010

OBJECTIVES:

Aitiip Technology Centre implements the project STRATEGIC PLAN OF ACTION FOR INTERNATIONALISATION OF R&D that aims to:

- Encourage participation of Aitiip in VIIPM.
- Encourage the participation of Spanish companies in consortia VIIPM, promoting the incorporation of new companies, both with outstanding R&D and for those with no clear orientation towards innovation specific programs for research for SMEs and SME-AGs ("Capacities") and other as NMP ("Cooperation").
- Disseminate knowledge, benefits and experience of the technology center.
- Strengthen the role of the entity in the VIIPM.

The Aitiip action plan is designed to ensure optimization in project management, improving the skills of project managers and promoted membership of networks and platforms, refine search channels and contacts with companies and associations in order to strengthen the work of the technology center and its role in the Seventh Framework Programme.

The main objective of this action is to inform and advise on the European Programmes to spanish researchers (both center and enterprises) and to act as interlocutor between the European

Commission, platforms and companies to setting priorities, developing work programs and assessment of calls.

The aim is thus the implementation of activities to ensure that companies have the necessary information about calls, contact with potential European partners and training opportunities.
